# INTRODUCTION

*Welcome to this new international virtual art exhibition, ArtNoise 4, year 2023.*

*In this online event, we have aimed to provide a glimpse into contemporary art through representative works by 32 emerging artists from around the world.*

*The exhibition will highlight the central theme of this call: "The Noise of Art." a visual sensation oriented towards communication, often capable of evoking conflicting emotions in the viewer, thereby directly or indirectly revealing the true creative essence of the artist.*

*Enjoy these masterpieces, and happy art!*  
*Stefano Fiore*
